

Brady M. Stephenson

Software Engineering Lead / Manager • brmstephenson@gmail.com • [LinkedIn](#) • <https://brady.ninja>

SUMMARY

- Software Engineer Lead / Manager with 12+ years of experience.
 - Frontend leaning full stack on React web applications.
 - Ruby on Rails backend experience.
 - Seeking senior or lead roles where I can own complex UI systems and mentor engineers.
-

PROFESSIONAL EXPERIENCE

Design Pickle

January 2025 – Present

Engineering Manager

- *Manage and mentor a team of 3 frontend engineers, leading sprint planning, architecture, and execution across 6 major platform initiatives.*
- *Directed infrastructure migration from Heroku → AWS, reducing annual cloud spend by \$30k+.*
- *Led frontend modernization and rebrand by migrating legacy Rails/React views to Remix + Vite, significantly improving build performance by 25% and local development speed by 90%.*
- *Introduced standardized AI-assisted engineering workflows via Cursor, improving iteration speed while maintaining code quality and consistency.*
- *Remained hands-on in production code while leading technical direction and system design.*

Design Pickle

January 2024 – December 2024

Lead Frontend Software engineer

- *Owned frontend hiring and onboarding, directly shaping team composition, technical standards, and long-term platform direction.*
- *Served as frontend technical lead across major product initiatives spanning core workflows, platform refactors, and feature launches.*
- *Partner closely with product and design leadership to deliver roadmap features used by 2,200 monthly active customers.*

Design Pickle

March 2022 – December 2023

Senior Frontend software engineer

- *First frontend engineer hired to architect and deliver a new React application.*
- *Designed and implemented the initial frontend architecture, component system, and tooling.*

Beam Dental – Columbus, OH

Software Engineer

August 2019 – April 2022

- *Developed front-end views using ReactJS, Styled Components, HTML5, CSS3, and jQuery.*
- *Developed backend applications using Rails APIs and views.*
- *Built AWS Lambda functions for file parsing.*
- *Led team efforts to deliver projects under aggressive timelines.*
- *Co-organized Front-End Working Group to share trends, best practices, and demos.*
- *Organized a client performance working group to identify issues and define follow-up work.*

Brady M. Stephenson

Software Engineering Lead / Manager • brmstephenson@gmail.com • [LinkedIn](#) • <https://brady.ninja>

Insight Digital Innovations/Cardinal Solutions Group – Columbus, OH

Senior Software Engineer/Team Lead

September 2015 – August 2019

- *Led and supported a development team, including career growth and delivery expectations.*
- *Developed front-end applications using HTML5, CSS3, JavaScript, AngularJS, Angular 2+, jQuery, and Bootstrap at client sites.*
- *Presented technical and non-technical topics at team meetings and internal groups.*
- *Co-organized meetings for an internal user interest group.*
- *Taught Angular at a weekend workshop for the Columbus Web Groups meetup.*

Tata Consultancy Services – Milford, OH

Software Engineer

July 2014 – September 2015

- *Developed IBM MobileFirst hybrid mobile applications.*
- *Built front-end features using HTML5, CSS3, JavaScript, AngularJS, jQuery, and Bootstrap.*

Ohio University – Athens, OH

Software Engineer

March 2013 – May 2014

- *Developed front-end features using HTML5, CSS3, JavaScript, AngularJS, BackboneJS, and jQuery.*
- *Created and maintained Oracle database queries.*
