

Brady M. Stephenson

Engineering Lead & Manager

740-221-5766 • brmstephenson@gmail.com • [LinkedIn](#) • <https://brady.ninja>

SUMMARY

Full Stack Engineer with 12+ years of experience building web applications. Expert in **React, TypeScript, and Ruby on Rails** with experience leading technical initiatives, mentoring engineers, and delivering customer-facing products. Experienced leveraging AI-assisted development tools to accelerate delivery while maintaining code quality.

SKILLS

Frontend: React, Remix, TypeScript, JavaScript, Tailwind, ShadCN, React Query, HTML5, CSS3

Backend: Ruby on Rails, REST APIs, SQL, PostgreSQL

Tools & Platforms: Cursor, Claude Code, ChatGPT, Opencode, Figma MCP, Jira MCP

Cloud & DevOps: AWS, CircleCI, Git, CI/CD, Docker, Vercel

Familiarity: Next.js, Prisma, Angular, GraphQL

PROFESSIONAL EXPERIENCE

Design Pickle

2022 – 2026

Engineering Lead & Manager

- Led frontend modernization by migrating to Remix + Vite, improving build performance by **25% and local development speed by 90%**.
- Directed migration from Heroku to AWS, improving platform reliability while **reducing annual cloud spend by over \$30k**.
- Partnered with Product, and UX teams to deliver **six major platform initiatives and customer-facing enhancements**.
- Collaborated on GenAI-powered product features, helping define technical implementation and customer experience requirements.
- Introduced **AI-assisted engineering workflows via Cursor**, increasing development velocity while maintaining code quality.
- Mentored a **team of 3 engineers** through code reviews, technical guidance, and day-to-day coaching while remaining hands-on in React and Rails applications.

Lead Frontend Software Engineer

- Served as technical lead for core customer workflows and platform initiatives used by more than **2,200 monthly active customers**.
- Led planning and execution of complex technical initiatives, partnering with stakeholders to translate requirements into deliverable milestones.
- Owned frontend hiring, onboarding, and mentoring efforts during a period of team growth.

Senior Frontend Software Engineer

- Hired as founding frontend engineer to architect and deliver a greenfield React application.

Beam Dental

2019 – 2022

Software Engineer

- Developed full-stack applications using React, Styled Components, HTML5, CSS3, jQuery, and Ruby on Rails.
- Designed and maintained Rails APIs, server-rendered applications, and backend business logic supporting core insurance workflows.
- Worked with relational databases and application data models to support business-critical systems.
- Co-organized Front-End Working Group to share trends, best practices, and technical demonstrations.

Insight Digital Innovations/Cardinal Solutions Group

2015 – 2019

Senior Software Engineer/Team Lead

- Led and supported a development team, including mentoring engineers and guiding delivery expectations.
- Developed full-stack and front-end applications using JavaScript, AngularJS, Angular 2+, HTML, and CSS.
- Taught Angular at a weekend workshop for the Columbus Web Groups meetup.
